

# Stretch Film Buying Worksheet

Define the roll, equipment, load and a repeatable wrapping trial.

## 01 | BUYER AND APPLICATION

Company

Contact / business email

Brief reference / date

Hand / machine / mini-roll application

## 02 | ROLL SPECIFICATION AND PURCHASING BASIS

Film width (mm)

Thickness (microns) / tolerance

Usable film length (m)

Net film-only weight (kg)

Measured gross roll weight (kg)

Core / other non-film weight (kg)

Core inside diameter / length (mm)

Roll outside diameter / max mass

Film color, construction or current roll label / specification

## 03 | EQUIPMENT AND LOAD

Wrapper model / carriage / pre-stretch setting

Pallet length x width x height (mm)

Gross load mass (kg)

Corners / protrusions / settling / load photos

Net film weight = measured weight - core - other non-film material included in the measurement.

Keep roll weight, carton weight and pallet weight on separate measurement bases.

SAFLO | SHENYANG, CHINA

Packaging consumables for B2B purchasing

# Stretch Film Buying Worksheet

Define the roll, equipment, load and a repeatable wrapping trial.

## 04 | CONTROLLED WRAPPING TRIAL

Current / candidate roll reference

Trial date / number of comparable pallets

Machine program or hand-wrap pattern, overlap and reinforcement

Film mass before / after wrapping (kg)

Film consumed / pallets = kg per pallet

Breaks, tails, load attachment, movement and agreed containment checks

Responsible reviewer / acceptance criteria / approved settings

## 05 | ORDER AND SUPPLIER CONFIRMATION

Order quantity / rolls per carton

Destination / delivery basis / requested date

Confirm roll specification, weight basis, MOQ, sample terms and timing

Approved brief: name / date

Supporting file / open question

Compare film cost per accepted pallet: film consumed per pallet x cost per net kilogram.

This is a buyer worksheet, not a measured technical data sheet or an approved pallet-load rating.
